# VISYT<sup>®</sup>

## PARTNER

# Compensation plan

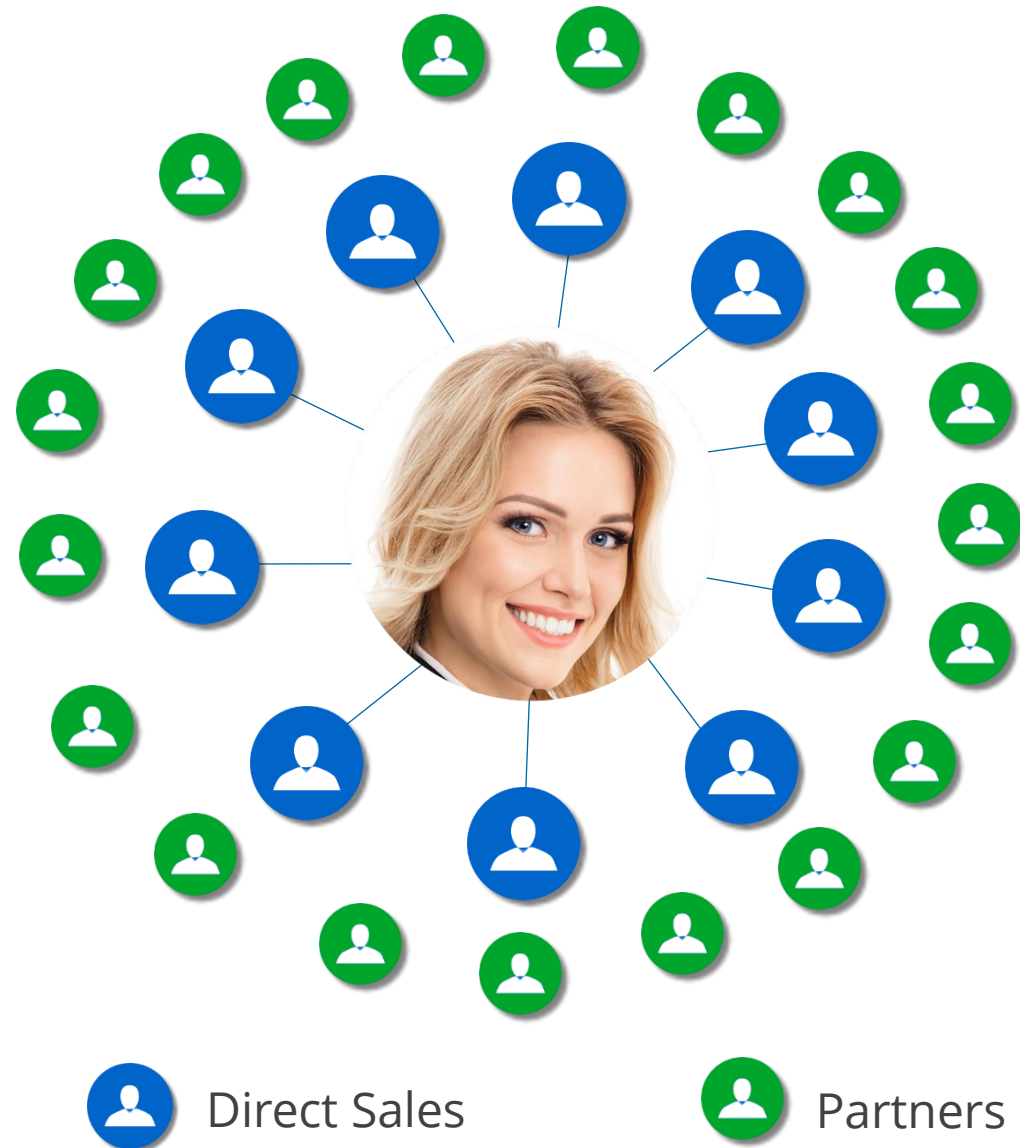

VISYT passes **72%** of sales and distributes it to all partners.

This share is paid out at **100%**.

A partner who refers VISYT receives **60%** of the share:

Each additional partner receives **10%** of the payout amount:

Everything is paid **monthly** for as long as the subscription runs.

# EXAMPLE CALCULATION direct placement

If you convince 10 restaurants  
to use the VISYT service.

You will get on a monthly base  
 $10 \times \$ 11.85 = \$ 118.50$

or

$10 \times \$ 15.00 = \$ 150.00$   
with premium subscriptions

Jane gets \$ 150.00 **every month**  
for the premium subscription  
(as long as the restaurants are using VISYT)

# EXAMPLE CALCULATION Network/Partners

You get **\$ 2.00 on a monthly base** for each subscription of your partners (or \$ 2.50 for the premium service)

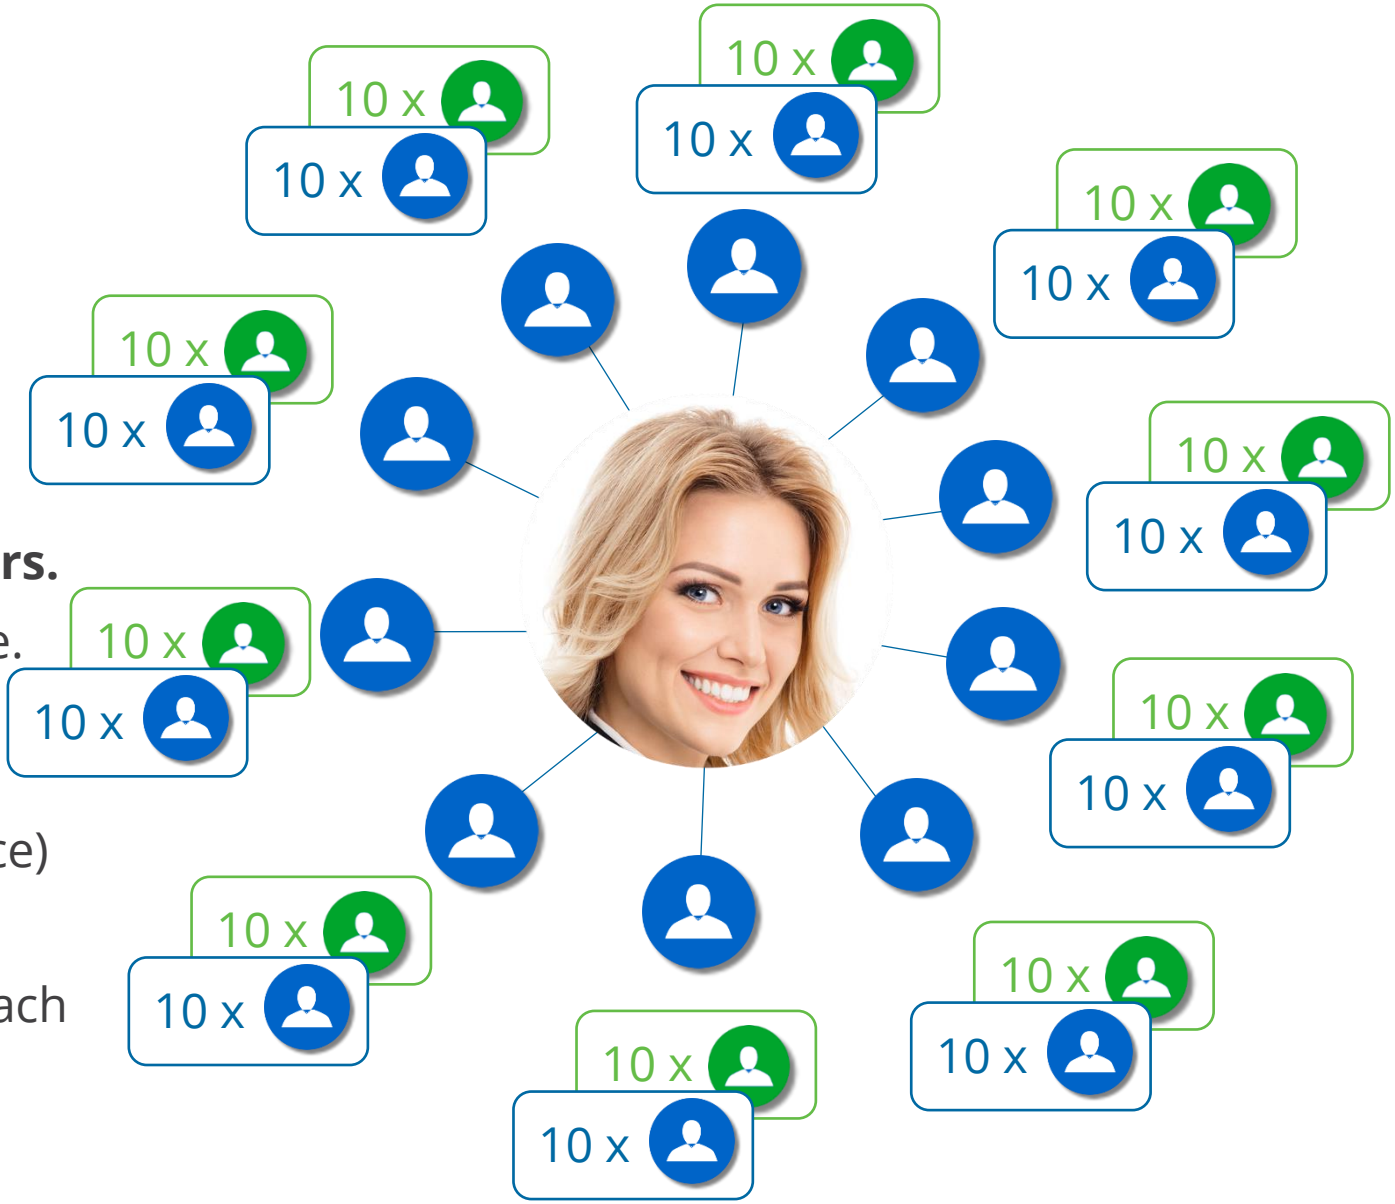

**Example: Each partner recruits 10 partners.**

Each partner sells 10 times the VISYT Service.

That's **10 x 10 x 10 = 1000** VISYT Services

That's **1000 x \$ 2.00 = \$ 2'000.00** (1000 x 2.50= \$ 2'500 for the premium service)

You will receive \$ 2'000 **each month**, or \$ 2'500.00 for the premium subscriptions, each month as long as the restaurants use VISYT.

# EXAMPLE CALCULATION

This example is only a calculation example and will not be achieved in reality, because not every partner holds the same number of new partners or customers.

However, the number of partners and customers that a partner can recruit himself is not limited, so there can be more than 10 customers and more than 10 partners. There will also be partners who only recruit one new partner or who do nothing at all.

Nevertheless, the calculation example is achievable, because customers and new partners are continuously being recruited.

Finding 10 customers and 10 partners within 12 months can be achieved on a part-time basis. A partner helps his new partners to recruit the first customers and further partners until he can do it himself and can help his partners.

This multiplies their own performance and builds a successful team
